

RESIDENTIAL SWIMMING POOL SAFETY ACT

Section A104

Contractor Accountability

Two copies of this completed page must be returned with permit application

Job Address 7936 Cordoba Place Permit Number: PRBD2020104336201

The Residential Swimming Pool Safety Act requires that a barrier isolate any new or substantially remodeled swimming pool, spa, hot tub or water feature that has a water level that is more than 24" deep. This barrier may be horizontal (an approved safety cover) or vertical (a wall, fence, screen cage, raised deck or appropriate combination). If the vertical barrier is penetrated by a door, window or gate an alarm or self-closing device may also be required. Because of design variations more than one method may be required to isolate the water and should be so noted below.

I acknowledge that a new swimming pool, spa, hot tub or water feature will be installed at the above address, and hereby affirm that one or more of the following methods shall be used to comply with the requirements of the current Florida Building Code.

Please initial as many methods as necessary to provide compliance:

1. _____ The pool shall be equipped with a listed and approved safety cover that complies with ASTM F1346-91
2. PWS The pool shall be isolated from access by an enclosure that complies with the pool barrier requirement of the currently adopted Florida Building Code.

Alarms Baby Barrier Fence Screen Enclosure

I understand that not complying with the current Florida Building Code at the time of the final inspection, or when the pool is completed for contract purposes, shall constitute a violation of Chapter 515, Florida Statutes and shall be considered as committing a misdemeanor of the second degree, punishable by fines of up to \$500.00 and/or up to 60 days in jail as established in Chapter 775 Florida Statutes.
