RE: Engineer's Letter - Permit PRBD20211155003
Project Description: NEW SFR
Project Address: 2842 8th AVE NE, Naples

Dear Mr. Walsh,

This letter is to clarify that the note on the approved plans, calling out for horizontal joint reinforcement does not apply in this specific case. Therefore, the mentioned reinforcement was not installed. I approve this choice and recommend the inspections 119 – Fill Cells, and 118 - Lintel Beam for approval by the building official.

I hereby attest to the best of my knowledge, belief, and professional judgment that the existing structure does not represent any safety concerns and can be recommended for acceptance.

If you should have any questions, please contact me at (239) 595 5465.

Regards,

Max Guerra, PhD., P.E., DWRE
Principal Engineer
MG Engineering Consulting Services, Inc.
(239) 595 5465
