

Instructions for Change of Subcontractor Process

This form is to be used to replace a subcontractor from an application or issued permit. For this process, there must be a subcontractor to replace the one identified on the Permit.

1. A fee will be assessed if the permit has been issued.
2. For owner/builder permits the owner-builder assumes the role of the contractor's tasks stated below.

SCENARIO 1:

The subcontractor is required to complete this **Change of Subcontractor Notification** form. This form notifies the county that there is a new subcontractor that is replacing the subcontractor identified on the permit. The form requires the existing subcontractor and the general contractor to sign their respective sections in the presence of a notary.

SCENARIO 2:

The **Change of Subcontractor Notification** form is required to be completed by the proposed subcontractor in **Section B** and the general contractor in **Section C**. Section A does not need to be filled out.

The contractor prepares a **Letter of Notification to Subcontractor of Termination from a Building Permit** and sends it to the subcontractor identified on the permit by way of certified mail. The letter of notification to subcontractor for termination form must be signed by the contractor in the presence of a notary.

The Contractor must send a copy of the change of subcontractor notification form and letter of notification to subcontractor for termination from a building permit with the tracking number and/or green certified mail slip to Collier County. This should be sent once the green card has been delivered or has attempted to be delivered. This would provide proof that the subcontractor identified on the permit has been notified of the termination.

CHANGE OF SUBCONTRACTOR NOTIFICATION FORM
